

Environmental Policy

Scanplus Print Group is committed to meeting the needs of its clients and customers in a responsible manner by seeking to minimise its environmental impact and acting on opportunities to generate environmental benefit.

Scanplus recognises that our activities, products and services have an effect on the local, regional and global environment. As a consequence of this the management are fully committed to continual improvement of our procedures to minimize their impact on the environment.

In order to demonstrate this commitment and ongoing environmental improvements we ensure that we meet the following objectives:

- To comply with all relevant regulations.
- To reduce material and energy consumption, solvent emissions and hazardous waste generation.
- To handle, transport, store and dispose of potentially environmentally damaging materials within the appropriate legislation and codes of practice.
- To improve efficiency of all operations to prevent pollution of the environment.
- To ensure that all employees are made aware of this policy, environmental issues and their responsibilities and are competent to meet those responsibilities through the appropriate training, communication and sharing of expertise and monitoring of the companies activities.
- To encourage an environmental awareness and responsibility of suppliers and clients through instruction and dissemination of information.
- To continue to use suppliers that have attained both FSC® and PEFC Chain of Custody who promote products that are from under the scope of the Forest Steward Council®.
- To maintain a strategy for external environmental communications including making this policy publicly available.

We implement our policies through a coordinated environmental management system in accordance with our ISO 14001 accreditation, certification for FSC (Forest Stewardship Council) Chain of Custody, whilst printing using vegetable based inks. The management hold an appraisal of our environmental performance every 12 months, and reviews our environmental targets and objectives to ensure they remain appropriate.

The contents of this policy is communicated to all company employees and is available to all interested parties, including the public, upon request.

Bernard Healy
Managing Director
